Framing the Nation: Documentary Film in Interwar France argues that, between World Wars I and II, documentary film made a substantial contribution to the rewriting of the French national narrative to include rural France and the colonies. Framing the Nation: Documentary Film in Interwar France ... Using until now overlooked films, Framing the Nation refutes this misconception and shows that the French were early and active believers in the uses of documentary film for social change - and these films reached audiences far beyond the confines of commercial cinema circuits in urban areas.
